

ORANGE BLOSSOM CINNAMON AND STAR ANISE

Brand: ETNA 3330

Product Code: 1000000041

Availability: In Stock

Weight: 160.00g

Dimensions: 70.00mm x 70.00mm x 60.00mm

Price: \$11.90

Short Description

Wild blackberry and licorice extra jam

Description

For this preparation, we decided to use as a base another zagare honey, the rounder and more complex one produced in the famous Sicilian orange groves. Then we added cinnamon, which in Sicilian desserts is a frequent ingredient that, in any preparation, takes the reins to rule as monarch.

In our interpretation, however, it gives way to star anise .He is in charge and uses the honey as a springboard, to plunge the taste buds into a sea of freshness. Important taste impact. Medium to long aged cheeses find themselves engaged in a continuous cession of dominance over the palate, a mock struggle from which pleasure is born. A very interesting juxtaposition is with white meats and pork, to which sweetness and freshness lend a dynamism that enhances the taste in creative and unorthodox ways.

All tasting notes were written by Marcello Ingrassia.

Food preparation of honey and spices

Ingredients: orange blossom honey (99.7 percent), cinnamon (0.2 percent), star anise (0.1 percent).

Italian honey
